Full Stack Developer / Design Engineer

Profile

I design and build digital products across SaaS, cloud infrastructure, payments, and video.

My background combines hands-on software engineering with the perspective of a founder. I make complexity useful, dependable, and clear.

Work experience

Streamify GmbH

CEO & Founder — *2025–present*

Stuttgart, Germany

I founded Streamify and serve as its CEO. I work on the platform we build for teams that develop and operate digital video and live streaming products.

Self-employed

Freelance Software Developer — *2020–2025*

Stuttgart, Germany

As a freelance software developer in Stuttgart, I worked independently on client software projects from 2020 to 2025.

Daimler AG

Product project management and digitalisation — *Apr 2019 – Aug 2021*

Sindelfingen, Germany

I worked full-time in transmission product project management at Daimler's Sindelfingen research site from 1 April 2019 to 31 August 2021. I helped coordinate transmission projects across purchasing, engineering, production, and other departments. I improved safety plans using VBA, redesigned a supply-chain database in Microsoft Access, and digitised requirements management in SharePoint. I also helped introduce Jira and Confluence and shared Scrum and Kanban practices with the teams.

Education

Karlsruhe Institute of Technology

M.Sc. Industrial Engineering and Management — *Apr 2019*

Karlsruhe, Germany

I completed the master's programme in Industrial Engineering and Management at Karlsruhe Institute of Technology. The certificate is dated 12 April 2019 and records an overall grade of 1.4 (very good).

TU Dresden

B.Sc. Industrial Engineering — *Apr 2016*

Dresden, Germany

I passed the bachelor's examination in Industrial Engineering at TU Dresden. The Faculty of Business and Economics awarded the Bachelor of Science on 8 April 2016.

Tin Votan

Full Stack Developer / Design Engineer

Selected projects

Streamify

Video technology

A platform for building and running digital video and live streaming products.

Databrix

Education technology

A collaborative cloud platform designed to make data science and machine learning education more approachable through a low-code environment.

VfB TV

Professional sports

A digital video and livestream experience for VfB Stuttgart supporters.

EintrachtTV

Professional sports

A video platform for highlights, interviews, livestreams, and premium Eintracht Frankfurt content.

Eurovision Watch Party

Public broadcasting

My team built and provided a watch party platform for SWR and NDR for the 2021 Eurovision Song Contest.

Jazz Open Stuttgart 2024

Live entertainment

My team built the live streaming and media channel for Stuttgart's Jazz Open festival in 2024.

Technical skills

Programming languages · TypeScript (Expert)

Frameworks · React (Expert), Next.js (Expert), Node.js (Advanced), Tailwind CSS (Expert), shadcn/ui (Expert)

Cloud platforms · AWS (Expert), GCP (Beginner), Azure (Intermediate), Cloudflare (Intermediate)

Data and databases · PostgreSQL (Intermediate), Drizzle ORM (Intermediate)

Infrastructure · Supabase (Intermediate), Vercel (Expert), Terraform (Beginner), Docker (Intermediate)

Developer tools · GitHub (Expert), Postman (Intermediate)

Third-party services · Stripe (Expert), PayPal (Intermediate), Clerk (Advanced), Mux (Expert)

AI tools · Claude (Expert), Codex (Expert)

Design · Figma (Advanced)

Languages

German	Native proficiency
English	Full professional proficiency

Interests

Fencing · Tennis · Piano
